

Round-the-clock eyes on your home, **built to grow.**

This 4-camera CCTV package gives you clear, full-colour footage day and night, with smart alerts that tell the difference between a person, a vehicle and a passing fox. Everything is recorded locally to your own hard drive — no cloud subscription required — and installed, configured and secured by SimpliHome from day one.

4MP Turret Camera

×4 · FULL-COLOUR NIGHT VISION

Weatherproof camera fitted at four points around the property. Captures sharp 4MP detail in daylight and keeps recording in full colour after dark using a built-in spotlight, rather than grainy black-and-white.

Network Video Recorder & 4TB Drive

4-CHANNEL · POE POWERED

Central recording unit that powers and records all four cameras over a single cable each — no separate power supplies or extra wiring needed. Built-in 4TB hard drive stores approximately 28 days of continuous footage.

4 Camera CCTV Package

Cameras, recorder & 4TB storage

£1,050 ex VAT

Price shown is exclusive of VAT. Subject to site survey and installation costs.

Key Features

Full-Colour Night Vision

A built-in spotlight keeps footage in full colour after dark, instead of grainy black-and-white.

Smart Person & Vehicle Alerts

Tells the difference between people, vehicles and false alarms like pets or blowing leaves.

Remote Viewing Anywhere

Check live footage and past recordings from your phone, wherever you are.

~28 Days of Local Storage

Footage is recorded to your own 4TB hard drive on-site — no cloud subscription required.

Built to Grow Beyond 4 Cameras

Need to cover more of the property? Additional cameras and higher-capacity recorders can be added later without replacing what's already installed, giving you a system that grows with your home.
